

COVID-19 UPDATE

We are excited to announce we are opening back up, but just like the rest of the world we have new policies in place. Please keep in mind that things are changing daily so you may be receiving multiple calls before your procedure. Your safety and health are our priority.

- It is required that all patients be tested for COVID-19. Once your physician has scheduled your surgery you will receive a call from one of our nurses to get this set up.
- **AMPSC will notify you ONLY if your test is positive.** If your test is negative, continue with pre-operative instructions provided.
- Our pre-registration staff will be contacting you to make sure all your information is correct.
- Your physician has instructed you to self-quarantine after your COVID-19 test has been completed. This means you **DO NOT** leave your home unless it is an emergency and you have no contact with anyone outside your home until your surgery is completed. This includes not reporting to your workplace. Your surgery will be cancelled if you do not self-quarantine.
- Adults (18 and older), your driver is **NOT** able to come into our facility. Restrooms are available in the main Unity Point Facility for use during your procedure. We will need your driver's cell phone number so your physician can call following the completion of your procedure.
- Pediatrics (17 and younger), only **ONE** parent/guardian is permitted to accompany you to your procedure.
- If you become ill or display symptoms of having COVID-19 such as cough, shortness of breath, sore throat, fever. If you start to display any of these symptoms, call the surgery center to notify the staff at **515-965-2200**.
